3. Inundation profile of the 869 and 2011 tsunamis

![Graph showing inundation profiles of the 869 and 2011 tsunamis. The graph includes data points for the 2010 Tohoku Earthquake Tsunami and the 869 Jogan Earthquake Tsunami, with indicators for inundation height, average of run-up limits (major and minor), and distribution limit of tsunami deposit. The graph also shows the present topography and Jogan paleo-topography.](image-url)
