6. Deposits by the 2011 and the 869 tsunamis

**2011**
- Thin mud cap
- Sand layer
- Rip-up clasts
- Soil

*Photo 3: site #215 in Fig. 2 (1350m from present coast)*

**869**
- Marsh deposit (mud)
- Rip-up clasts
- Soil

*Photo 4: site #010 in Fig. 2 (1500m from Jogan coast)*

**2011**
- Mud cap
- Sand layer
- Soil

*Photo 6: site #183 in Fig. 2 (1950m from present coast)*

**869**
- Volcanic tephra (AD915)
- Sand

*Photo 6: site #504 in Fig. 2 (2100m from Jogan coast)*

- [2011] 12-cm-thick massive layer of coarse- to medium-grained sand
- [869] 8-cm-thick massive layer of medium-grained sand
- [869] 1-cm-thick fine-grained sand
