

Australia-Japan Joint Symposium: Tourism and Disaster Resilience

オーストラリア・日本共同シンポジウム: レジリエンスの観点からみた災害とツーリズム

2023 June 22 / 6月22日

10:00 – 17:00 (JST / 日本標準時)

11:00 – 18:00 (AUS Eastern Time)

Online and In-Person / 対面・オンライン

Tohoku University IRIDeS 1F Multi-Purpose Room
東北大学災害科学国際研究所1F多目的ホール

公益財団法人 仙台観光国際協会

Australian Government

豪日交流基金
Australia-Japan FOUNDATION

Many communities in Australia and Japan are exposed to natural hazards which have led to numerous disaster events in the past. At the same time, the tourism industry has grown rapidly in both countries, potentially increasing vulnerabilities to tourists and the host communities. The Tohoku region of northern Japan had recently hosted two mega-events, the 2019 Rugby World Cup which experienced typhoons and floods, and the 2021 Tokyo Olympics, held during the period of COVID travel restrictions. As Australia is set to host a number of mega-events, such as the Olympics and Commonwealth games, this symposium brings together academics, government representatives, and experts from Australia and Japan together to share experiences and exchange ideas on how to strengthen tourism resiliency.

Online and In-Person participation is free, please register at the URL below. Video URLs will be provided upon registration. In person registration will be limited to the first 50 people.

Organizing Committee

David N. NGUYEN

Tohoku University

International Research Institute for Disaster Science Designated Associate Professor
東北大学災害科学国際研究所特任准教授

Dr. Nguyen is the leader and organizer of this symposium. Originally from Hawaii, he specializes in disaster management and urban planning, especially in regards to tourism and transportation. He is the associate editor of the Island Studies Journal and is a member of the International Organization for Standardization (ISO), where he has written several deliverables in regards to disaster risk reduction. His focus areas are Oceania, North America and Asia.

Kanako IUCHI

Tohoku University

International Research Institute for Disaster Science Associate Professor
東北大学災害科学国際研究所准教授

Kanako Iuchi pursues the model of scholar-in-practice and has worked in international development planning and disaster risk management for more than 25 years, specializing in disaster management planning, urban and regional planning, and community development. Her recent work centers on planning topics of community relocation, governance, land use, and spatial form in post-disaster settings in Indonesia, Japan, the US, and the Philippines.

Gui LOHMANN

Griffith University

International Research Institute for Disaster Science Designated Associate Professor
グリフィス大学航空輸送・観光マネジメント教授

Dr Gui Lohmann has authored several books, including "Tourism theories: concepts, models and systems" published by CAB International and co-edited "Tourism in Brazil: environment, management and segments" published by Routledge. He has worked as a consultant for the Brazilian Ministry of Tourism, the World Tourism Organization and the United Nations Environmental Program, in addition to providing consulting to Adelaide Airport, Brisbane Airport Corporation, and Queensland Airport Ltd. His research interests include air transport management, tourism development, travel behavior, and airline business models. He is a member of the Tourism Economics and Management Research Centre (NEAT) at the University of São Paulo (Brazil).

Joseph M. CHEER

Western Sydney University

Professor of Sustainable Tourism and Heritage, School of Social Sciences,
ウェスタンシドニー大学社会科学部サステナブル・ツーリズム＆ヘリテージ教授
Joseph is Professor of Sustainable Tourism and Heritage, School of Social Sciences, Western Sydney University, Australia (2023). Joseph is Co Editor-in-Chief of the journal Tourism Geographies, a Co-Chair of World Economic Forum (WEF) Future Council on the Future of Sustainable Tourism, and Board Member of Pacific Asia Travel Association (PATA). He was recently elected Co-Chair of American Association of Geographers (AAG) - Recreation, Tourism and Sport (AAG-RTS) and sits on the board of International Geographical Union(IGU) Tourism Commission.

Miku NARISAWA

Co – Director of Odyssey/PhD student at Tohoku University

一般社団法人ODYSSEY共同代表理事・東北大学大学院博士課程

Miku Narisawa is the co-director/co-founder at Odyssey where they provide nature-based education programs in her hometown in Higashimatsushima, Miyagi. Miku is also a PhD student at Department of Environmental Studies, Tohoku University where she is conducting research on environmental anthropology, specifically focusing on the reciprocal relationship between fishery and ocean in coastal communities.

Jessica HALLAMS

Tourism Consultant

観光コンサルタント

Jess has been engaged in the inbound tourism industry of the Tohoku region for the past seven years. Most recently, she was a product developer for a Miyagi-based DMO, working with local government agencies and businesses to create sustainable tourism programs to promote recovery and revitalization in regional areas.
